WORK-EXPERIENCE

Front-End Developer

Trionn Design

Rajkot

Built a responsive website using HTML5, CSS3, JavaScript, and React.js. The website is fully mobile-friendly and accessible across all devices. This project highlights my skills in developing and maintaining front-end web applications, as well as my ability to create user-friendly and inclusive web experiences.

Data Science Intern

BrainyBeam Technology PVT. LTD.

Experience in Python, machine learning algorithms, and data visualization. Proven ability to collect, clean, and analyze data to extract insights and build predictive models.

PROJECTS

- EverSafe Insurance

Developed a fully responsive and user-friendly insurance website using React.js, Bootstrap, Framer Motion, HTML, CSS, and JavaScript. Demonstrates strong ability to build dynamic front-end interfaces with modern design principles and cross-device compatibility.

URL : <https://eversafeinsurance.netlify.app>

- Live weather

A free weather web app that provides accurate, real-time forecasts for any location worldwide. Features include live temperature, humidity, and wind speed updates, delivered through a responsive and user-friendly interface.

URL : <https://liveweatherwebsite.netlify.app/>

- WorldAtlas

A React-based web application displaying comprehensive information on countries, including historical context, demographics and geopolitical data.

Integrated with REST APIs to fetch real-time country data and ensured a responsive, user-friendly interface.

URL : <https://myworldatlass.netlify.app/>

- BMI

Developed a BMI calculator using JavaScript implementing input validation And real-time result display. Applied health metrics logic to categorize BMI results and improve user awareness of fitness levels.

URL : <https://bmicalcindex.netlify.app/>

SUMMARY

Front-End Developer with a B.E. in Computer Science and proven experience in building responsive web applications using React.js and JavaScript. Specializes in crafting modern, user-friendly interfaces with a strong focus on design thinking, problem-solving, and technical precision. Skilled in creating clean, intuitive UIs and eager to contribute to a dynamic, forward-thinking development team.
